Vodafone CobraTrak

Stolen Vehicle Tracking and Monitoring Services

The ultimate protection for your vehicle – with European coverage as standard*

Today's high value vehicles provide rich pickings for today's new breed of professional vehicle thieves who steal to order.

Improvements in vehicle security and advancements in telematics technology, in particular stolen vehicle tracking, have been at the forefront of reducing stolen vehicle numbers in the UK from over 300,000 to under 70,000 in recent years.

Vodafone CobraTrak uses the latest GPS / GPRS / GSM technology, providing pinpoint accuracy and unparalleled service levels. Police liaison is conducted in local language through Vodafone Automotive's network of Secure Operating Centres across 44 European countries.

Vodafone CobraTrak is installed covertly to your vehicle, so thieves have no way of knowing that a tracking system is present.

All Vodafone CobraTrak systems are Thatcham accredited - which can reduce insurance premiums - and carry a 3 year warranty which is usually transferable to a replacement vehicle, enhancing the vehicle's residual value and protecting the owner's initial investment.

Choose the Vodafone CobraTrak Plus system which detects unauthorised movement of a vehicle when the ignition is switched off (e.g. if the vehicle is towed away).

Or opt for our proactive top of the range Vodafone CobraTrak 5 system with Remote Ignition Lock functionality, allowing Vodafone Automotive to safely immobilise a stolen vehicle with Police authorisation. This proactive stolen vehicle tracking system automatically detects theft even when a thief has taken the vehicle keys.

Web Upgrade option available

Vodafone CobraTrak Plus can be upgraded to include a user friendly web application that gives owners the ability to obtain a pinpoint location for their vehicles on demand, including the powerful key facility of setting a geofence zone, and receiving an immediate SMS or email alert should a vehicle leave the pre-set area.

Vodafone Automotive is the European market leader for Stolen Vehicle Tracking

The only approved tracking supplier to: Aston Martin, Audi, Bentley, Ferrari, Infiniti, Lamborghini, Maserati, McLaren, Mercedes-Benz Trucks, Nissan, Porsche, Renault, Seat, Škoda, Tesla, Volkswagen passenger cars and Volkswagen commercial vehicles.

Vodafone CobraTrak Insurance Recognition

All Vodafone CobraTrak systems are Thatcham accredited and recognised by the majority of leading insurers. You may qualify for a discount on your insurance premium.

Countries Covered

Albania, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France (incl. Monaco), Germany (incl. Liechtenstein), Greece, Hungary, Ireland, Italy (incl. Vatican City, San Marino), Latvia, Lithuania, Luxembourg, Macedonia, Malta, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, Serbia, Slovakia, Slovenia, South Africa, Spain (incl. Andorra, Gibraltar), Sweden, Switzerland, Turkey, Ukraine, United Kingdom.

Vodafone CobraTrak Plus

Vodafone CobraTrak Plus offers stolen vehicle tracking with pan European coverage* as standard, and is recognised by major insurers thanks to Thatcham Category 6 (formerly Thatcham TQA) accreditation.

Key Features

Pinpoint GPS Tracking

International GSM and GPRS Coverage

Europe wide coverage
(49 countries worldwide)

24/7 Service

Detailed theft history facilitates recovery

Thatcham CAT6 accredited

Recognised by major insurers

Automatic system health check

3 year warranty

System transferable

Our standard Vodafone CobraTrak Plus system delivers stolen vehicle tracking with the added security of generating:

Tow-Away Alert

When motion is detected with the ignition switched off (e.g if the vehicle is towed away)

Tamper Alert

When the vehicle battery is disconnected or discharged, or the system wiring is cut

GSM Jamming Alert

When an attempt to jam the GSM signal is made

Web Upgrade Package - (Vodafone CobraTrak Plus only)

Vodafone CobraTrak Plus can be upgraded to include the following functionality for a small additional fixed annual fee:

Real time vehicle location

Via a simple password protected web application. Available for multiple vehicles

Geofence facility

allowing alerts to be set relative to vehicle movement in and out of a user definable area (entering, leaving or both)

A Self-set Transport Mode

When travelling for instance by ferry, or Garage Mode, when the vehicle is being serviced, prevent false alerts

Vodafone CobraTrak 5

Vodafone CobraTrak 5 is the top of the range Thatcham Category 5 accredited system, incorporating all the benefits of Vodafone CobraTrak Plus, GPS jamming detection, and the added protection of both Automatic Driver Recognition via a Driver Card and Remote Ignition Lock.

Key Features

Automatic Driver Recognition

Drivers are issued with a unique pocket-sized Driver Card and on leaving the vehicle the system automatically arms itself. If the vehicle is moved without the Driver Card present, Vodafone Automotive's Secure Operating Centre is alerted instantly to a potential theft, even if the vehicle is taken using the vehicle's own key

Remote Ignition Lock

Enables the Police to authorise Vodafone Automotive to send an alert to the vehicle and prevent the engine being restarted once it comes to a standstill. This significantly increases the chance of both the vehicle and its contents being recovered undamaged, and can help avoid high speed police pursuit of suspect vehicles

GPS Jamming Alert

Triggered when an attempt to jam the GPS signal is made
